

Handy Grinder ULTRA SANDER

LINAX
www.linax.co.jp

HK-10H

Excellent performance
for all types of
surface preparations.

LINAX ORIGINAL CUTTERS

Features

Dust control at construction site.

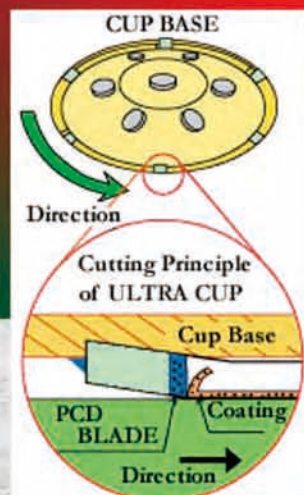

Connectable with dust collector which provides dust-free environmental site.

Enable to grind along the wall, maneuverable in narrow spaces.

Enable to grind along wall-edge, and narrow areas where difficult for large scale machine to perform.

An outstanding performance for removing coating.

Especially when using ULTRA CUP, it performs marvelous power in removing elastic coatings, adhesives and etc.

SPECIFICATIONS

Model	HK-10H
Dimension (L x W x H)	317 x 126 x 144 (mm)
Total Weight	1.98kg
Power	Single-phase 100V
Current	10.5A
Grinding Width	94mm
Spindle	10100min-1
Power Cable	2.5m(earth wire unnecessary)

LINAX CO., LTD.

Handy Grinder ULTRA SANDER

Types of Cutters

Provides excellent performances and high productivity.

Cutters can be use accordingly to the needs of the constructions.

Ultra Cup **GOLD**

Removing deteriorated coating, water-proof coating/wall spraying materials, stucco, acrylic dust-proof coating, black glue; roughening concrete surface; leveling height gap.

CS Ultra Cup

Cushion System Ultra Cup. Performs low vibration while operating. Removing deterioration layers, water-proof coatings, anti-dust coating, wall spray materials, adhesives (black glue); roughing concrete surface.

Dia Cup **GOLD**

Grinding hard concrete, epoxy coating and etc. To make surface more roughen, and speed up construction work.

Dia Cup **SILVER**

Grinding, roughening, and repairing uneven concrete surface, (Standard Cup)

Dia Cup **FLAT**

Surface grinding of concrete and hard resin coating. No scratches remain on surface, ideal for smooth medium finishing grinding purpose.

Dia Cup **FINE**

#100

#200

For smooth and fine finishing purpose. For surface grinding, e.g. concrete, hard resin coating, gold substances and etc. The segments made by extremely fine powder diamonds are ideal for smooth grinding.

Removing epoxy coating.

Removing urethane coating.

Removing elastic coating.

Removing adhesives.

Dust Collectors Series *Ultra Sander /Clean Cutter Common Use*

- A wide filter area, provides strong and steady performance.
- Equip with sand bag inside the dust tank, convenient for dust-dumping.
